Trust in One Name

Trust in One Name when looking for the ultimate selection and value in plastic packaging materials. From can liners to industrial films, trust in one company to provide a range of products that is second-to-none. Our dedicated staff and dynamic resources mean uncompromised product quality and integrity.

Bring all of your plastic packaging requirements to the most trusted name in the industry. In addition to our vast assortment of standard packaging products, we are continually developing and manufacturing new and innovative products that exceed customer and marketplace requirements. As an ISO 9001 certified company, Inteplast is committed to designing and manufacturing products to the highest technical, functional and quality standards, providing superior service and satisfying our customers at every opportunity. The combination of outstanding resources, dedicated employees and investment in the latest technologies allows Inteplast to remain at the head of the plastics packaging industry.

At Inteplast, we seek to be at the forefront of plastics packaging technology. We continually explore the everyday needs of our valued customers and distribution partners, providing real-world solutions that benefit all.

When your packaging needs require the highest quality, largest breadth-of-product in the industry, along with best value, you can **trust in our name - Inteplast, your single-source solution.**

Inteplast Brings You Solutions with our World of Bags

Inteplast manufactures a complete range of products that can satisfy all of your plastic packaging requirements. With one of the most diverse selection of products in the industry, Inteplast lets you maximize value by fulfilling all your plastic packaging needs from a single source industry leader. Take advantage of our manufacturing economies of scale to streamline your ordering process for all of your plastic packaging requirements. Made-to-order products become a snap thanks to our professionally trained product specialists and our superior engineering capabilities and manufacturing technologies. In addition, you can combine your special requirements with your standard products and achieve maximum purchasing value and efficiency.

Our product offerings include, but are not limited to: Food Service products, Institutional products, Can Liners, T-Shirt bags, Merchandise bags, Produce bags, Garment bags, and Industrial Packaging/Films.

We currently service leading companies in multiple markets with both standard products and special made-to-order logo bags. Customers achieve their goals across multiple product lines with single-source economics.

Our most valuable asset is you, the customer. Allow Inteplast to become your single-source supplier.

Trust in a Company with Commitment

Environmental Responsibility

Inteplast products are developed with the environment in mind.

World Class Manufacturing

Our Nine Manufacturing Plants are the largest of their kind in the world.

All Inteplast products are *100% recyclable*. Our products are produced at low gauges, minimizing raw materials that are used in the manufacturing process. Inteplast products are made from chemically stable, non-leaching materials that will not affect groundwater resources. All inks used for Inteplast printing applications are water-based and do not adversely impact the environment. Inteplast has an on-site recycling plant that has the capacity to recycle over 30 million pounds of plastic waste annually. Reclaim lines in all of our plants reprocess internally generated scrap that is integrated into the manufacturing process.

At Inteplast, we believe that facilitating community involvement and continuing education are the keys to a successful recycling program.

We have incorporated the most innovative technologies into our manufacturing process, including advanced automation, computerization and robotics. All Inteplast plants have achieved ISO 9001: Certification, the world-recognized stamp of quality. Additionally, each plant maintains its own product line dedicated quality control laboratory. Our highly trained technical teams not only conduct rigorous testing on existing products. They are directly involved in the development of new products and applications.

Commercial & Institutional

We manufacture multiple product lines for commercial and institutional markets. HDPE and LLDPE can liners, **Draw Tuff**® draw tape can liners and hospital infectious waste liners are all manufactured in our Lolita, Texas facilities. We have a solution for every application.

Retail & Merchandising

Retail establishments utilize our extensive array of bags for shopping including, T-shirt bags, high-end carry-out bags and garment bags in various film colors. When it comes to retail, we have a dedicated product for every purpose.

Food, Produce & Supermarket

As the leading manufacturer of food and produce bags, Inteplast offers the widest range of self-serve bags to meet all your carry-out needs. Our product offerings, including our special Grip n' GO™ feature and custom imprints, out-perform and out-deliver the competition. All of Inteplast bags are FDA-approved for safe food storage and handling.

Industrial Liners & Films

Inteplast's Industrial Products Group is your complete resource for films, liners and wraps. Manufacturing one of the largest varieties and choices of product in the industry, we have dedicated films for the metal, construction, agricultural, produce and packaging industries. Our shrink wraps and liners are the most versatile in the market.

Food Service

Food Service products provide unmatched performance and value in flexible food packaging. From commercial kitchens to fast food, Inteplast has a product that will exceed your expectations.

Inteplast Plastic Wrap is quickly becoming the Food Industry standard. Our wrap clarity, high strength and durability mean complete integrity for your food storage needs. Our Cutter Edge Box features a unique dinging control guide and sharp cutting edge that produces fast-and-clean cuts while reducing waste.
